

The NEISAS Project Final Workshop

Friday, 25 March 2011

Venue: IET Savoy Place, 2 Savoy Place, London, WC2R OBL, UK

Admission: Free, by invitation only

Dear Colleague

We would like to announce and invite you to our upcoming NEISAS Final Workshop. **NEISAS (National and European Information Sharing and Alerting System)** www.neisas.eu is a project funded by the European Commission through the Directorate-General Home Affairs.

The NEISAS project engages with stakeholders in the public and private sector who are addressing **Critical Information Infrastructure Protection** through trusted information sharing on vulnerabilities, threats and good practice solutions. These national communities, often called Information Exchanges (IEs) or Information Sharing and Analysis Centres (ISACs), meet face-to-face at regular intervals but also have a need to share information electronically via a trusted platform.

NEISAS has intended to create a framework and a prototype national platform which will also provide the capability for bilateral exchange at the European level between national platforms. The project started in early 2009 and will conclude in April 2011 culminating in this closing workshop.

The results of the NEISAS project will be presented alongside the current context for NEISAS in relation to information sharing and exchange in Europe. A key approach taken in designing the NEISAS Framework and prototype platform was the analysis of requirements from communities who already exchange information face to face. Delegates will have the opportunity to take part in discussions addressing various NEISAS learning points, including ISO/IEC 27010 in relation to the NEISAS Framework and the lessons learnt in cross border information sharing and exchange.

The attached draft programme describes the day and if you would like to attend please register by sending an email with your details to enquiries@neisas.eu where you will be added to our formal invitation list. There is no charge for attending but spaces are limited so please register your interest as soon as possible.

Updates to the programme will be posted here: http://www.neisas.eu/?page_id=1233

Kind regards

The NEISAS project team
